1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. ### REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art fails to teach a combination of all the limitations as claimed in the independent claim 16, wherein the claimed invention comprising an image forming lens element having anterior and posterior surfaces, wherein said posterior surface of said image forming lens element has a shape corresponding to the shape of the anterior surface of said contact lens element; and a retaining ring configured to maintain said contact lens element and said image forming lens element in a mating relationship with one another wherein said contact lens element and said image forming lens element are maintained in mating relationship with one another without the use of an adhesive agent therebetween, as claimed. The prior art does not disclose or fairly suggest, either alone or in combining with any other reference, to meet a combination of all the limitations as claimed in claim 16 either under 35 USC 102 or 103. Therefore claims 16, 18-21 could be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
